

Data Protection

Our data protection policy is currently being developed.

Designmap is committed to compliance with the requirements of the Data Protection Act 1998 (“the Act”), which came into force on the 1st March 2000. Designmap will therefore follow procedures that aim to ensure that all employees, contractors and consultants who have access to any personal data held by or on behalf of Designmap, are fully aware of and abide by their duties and responsibilities under the Act.

Statement of policy

In order to operate efficiently, Designmap has collected information about people with whom it works. These may include past and prospective employees, clients and customers, and suppliers. This personal information must be handled and dealt with properly, however it is collected, recorded and used, and whether it be on paper, in computer records or recorded by any other means, and there are safeguards within the Act to ensure this.

Designmap is currently reviewing it’s procedures in relation to the collection and storage of data in order to provide a formal written policy document.
