

Environmental Policy

Our Environmental Mission Statement

We seek always to reduce waste, to recycle everything we can and to minimise our impact on the environment in which we live and work.

Our Policy

Environment Value 1

We are committed to legal compliance, continual improvement and prevention of pollution.

We will:

- specify environmentally friendly materials and processes for construction
- monitor waste disposal procedures during on site works
- monitor our suppliers and subcontractors environmental policies and procedures
- always recommend the use of recycled stock and products for our clients
- always recommend environmentally friendly printing processes for our clients
- recycle all paper and our printer cartridges
- only use eco-friendly materials and products in our office
- monitor energy use within our office and minimise energy consumption

Environment Value 2

We are committed to training all members of staff in environmental best practice.

We will:

- as part of our induction scheme, educate and train all staff in our environmental practices
- encourage all employees to cycle to work where possible
- continually review these practices and encourage staff suggestions on how to improve these practices.

Environment Value 3

We are committed to monitoring our impact on the environment and seek year on year improvements in our environmental performance.

We will:

- conduct an environmental assessment prior to beginning a new client project
- annually undertake an independent environmental audit from an external consultant.
